

We Are Not Alone

Basement Jaxx

The sky is not the limit
We are not alone I see you up there watching me
Giving me some company
It's so nice
It's a comfort
Searching for eternity
To fill this empty space in me
So nice, we have contact
We are not alone
All along we're not alone
We are not alone
I know there has to be a little more something, something
I feel it rising up inside of me
Excited it in my chemistry
Feel it Connected by telepathy
Extra-dimensionally, it's so nice
We found contact
We found contact
The sky is not the limit It's so nice
We have contact
Star visitors The sky is not the limit
