

# Goldmine

## Seed

This is Seed, here I  
And I appear in here with illvibe for our tribe  
For all our people doing their thing  
You are king, keep going  
Appear you are right We bend your knees, we are real  
To make you feel so glad  
We need the sweet We use our keys, cool heat  
We like to feed our head  
We need the sweet Born for peace  
There is no need for us to bleed so bad  
We need the sweet Time to release our breed  
Life could be so sweet instead  
How do you feel? Our wind blows mad  
Ride with me, we pass the dead  
Turn your wheel  
The light shows what you get  
And now take that There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine Spice this, realize this  
In us we trust and reflect wide eyes  
Wild styles, we bust ideas and we act wise in open files  
Not just for ears, this track is to dance miles on our sunrise We are nice, we and this try  
Should last till we are past  
We blast this sound packed  
Here is what we select There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine There is gold in the mine  
We need the sweet, hold that beat, make it shine

There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
We need the sweet, hold that beat, make it shine  
There is gold in the mine  
Make it shine
