

# 2 In The Morning

## New Kids On The Block

Tick, tick, tock, tock  
Tick, tick, tock, tock, tick, tick  
Wake up, wake up  
Wake up, wake up  
I know you must have had a long day  
'Cause at 6 o'clock I heard you say  
There was something that was on your mind  
But you ain't told me and it's almost 9  
Now it's 9 o'clock and I thought  
We could talk but you ain't giving in  
Through this hovering girl, it's almost 10  
Gotta know if you're mad at me before Grey's Anatomy  
'Cause we could drag this out all night  
Until it's 2 in the morning, girl whatcha wanna do?  
Do you wanna fight? Wanna say goodnight?  
If you tell me you want it this could be over  
'Cause it's 2 in the morning, girl whatcha wanna do?  
Do you wanna fight? Wanna say goodnight?  
If you tell me you want it this could be over  
The lights are out, don't wanna wake you so I'm creeping in  
I know you're hurt 'cause baby you're not sleeping in  
My favorite pair of boxers that you make look so hot, girl  
You're playing sleep but I know you're not girl  
And now it's 12 o'clock and I thought I should talk  
But you're not listening, here we go again  
You know I like it when you got your back to me  
But not when you're mad at me

Please look at me and say goodnight  
It's almost 2 in the morning, girl whatcha wanna do?  
Do you wanna fight? Wanna say goodnight?  
If you tell me you want it this could be over  
'Cause it's 2 in the morning, girl whatcha wanna do?  
Do you wanna fight? Wanna say goodnight?  
If you tell me you want it this could be over  
I wanna come over, baby turn over  
Girl, I'ma lay up all night  
Just waiting for your kiss goodnight  
Even if you're mad at me

You know we shouldn't go to bed angry  
Now it's 2 in the morning, girl whatcha want to do?  
Do you wanna fight? Wanna say goodnight  
If you tell me you want it this could be over  
'Cause it's 2 in the morning, girl whatcha wanna do?  
Do you wanna fight? Wanna say goodnight?  
If you tell me you want it this could be over  
We can work it out, wake up, wake up  
We can work it out, get up, get up  
We can work it out, I wanna come over  
We can work it out, wake up, wake up  
We can work it out, get up, get up  
We can work it out, I wanna come over
