

# Bring Me You

## Uncle Jed

Tickle my fancy  
And bring me a tea  
Make it hot like the one yesterday.  
And bring me a field of your favourite flower  
Make it mine and then mine I will make  
Then bring me you. Draw me a picture  
I'm dying to know  
What you see when you look in me  
Then I'll be your subject and when you are done  
I will show you what I want to be  
Then bring me you  
Follow your instinct and I'll compromise  
I won't laugh when you show me your style  
Coz I am delighted to share in your eyes  
Coz I know it was there when creation derived. Coz every little thing you take, you give it  
Every bare necessity, you can make it  
Every anniversary, you can make it  
Even if it was impossible  
And every little inch you break, you fix it  
Any time my tummy aches, you kiss it  
Everyday the sun don't set, you paint it  
Everyday is magic in your eyes And all I know  
Is that there's gotta be someone there to match this  
And all I know  
Is that there's gotta be someone kinda like this  
Coz even in this perfect world that I have just created  
I find a comfort in the fact that I have longer waited. Ooh ooh ooh ooh  
Ooh ooh ooh ooh Tickle my fancy  
And bring me a tea  
Make it hot like the one yesterday
