

Control You

Bleeding Hearts Syndicate

The stage is set for a long night
But I wont be taking a nightride
Why should I ?
Im feeling quiet and peaceful here,
Im safe inside my mind
So I wont fall outThe stage is set for a heartache,
Could be more than a heartbreak
This time
But Ill just look the other way
And Ill be fine,
You wont bring me down againShould I
Forget the way you looked tonight ?
Now I
Promise I wont crySomebodys getting harder :
Im a razor blade !
I guess I know you better :
You wont fool me again !
Im back home from the dead yeah
Frozen to the core
And now youre back for moreControl Control yourself tonight
Control Control yourself this time
Come on You are the one,
Youre here to save your mothers son
Control Control yourself
Come on Or shell control youThe stage is set for a long night
