greener with the scenery

[unknown]

You took it back
How could you go and do something like that?
My fingernail phase
Worst has got the best of you
I ask you and I know I need to change, change
You took it back
You ripped my heart out of my, then you put it back
I'm pulling my hair
I loveyou just a million times
I love you even though it isn't fair
Why do we go round again in circles?
Play this game over again
Why do we go round again in circles?
You took it back
You ripped my heart out of my, then you put it back
I'm pulling my hair
I love you just a million times
I love you even though it isn't fair
Why do we go round again in circles?
Play this game over again
Why do we go round again in circles?
You took it back
You took it back
Can we go around again in circles?
Play this game over again
Why do we go around again in circles, circles?
Why do we go around again in circles?
Play this game over again
Why do we go around again in circles, circles?
