

# What Happened to U

## Usher

When you give it up, you get it on  
What happened to you yeah  
From the beginning to where I was getting  
But I was with it, and I'll admit that  
She was clear it was a kinda thing  
It wouldn't be easy for me to let it go  
For my time I got money, but money don't buy time  
I got a head someone got left behind  
The world is yours, your sign is that aligned  
And in no time, I hear, money clouds fancy cars  
Big old cribs, platinum on the wall, seven grammys  
Sold out concerts damn I've been working hard  
Private jets to france, many women  
I didn't have a ball  
You can say I've made it  
But I've fainted cause I miss you  
Give me your bag  
But the issue this we can get back  
What happened to you, yeah, turn back  
Cause I miss you, give me your bag  
What happened to you  
What happened to you

Did what I wanted, freaked out the honies  
I stayed only mine, mine was on the money  
Pack whatever, whenever hot tub forever  
Black young and clever

When you give it up, you get it on  
Love would be the only reason to look back  
And when you turn it on, you can't turn it on  
But picture me complaining the notice  
Money clouds fancy cars  
Big old cribs, platinum on the wall, seven grammys  
Sold out concerts damn I've been working hard  
Private jets to france, many women  
I didn't have a ball  
You can say I've made it  
But I've fainted cause I miss you

Give me your bag  
But the issue this we can get back  
What happened to you, yeah, turn back  
Cause I miss you, give me your bag  
What happened to you  
What happened to you

What sense does it make to have everything and nothing  
At the same time...  
Where are you  
I need you, yeah  
I'm looking for you, girl, come and share all these

Money clouds fancy cars  
Big old cribs, platinum on the wall, seven grammys  
Sold out concerts damn I've been working hard  
Private jets to france, many women  
I didn't have a ball  
You can say I've made it  
But I've fainted cause I miss you  
Give me your bag  
But the issue this we can get back  
What happened to you, yeah, turn back  
Cause I miss you, give me your bag  
What happened to you  
What happened to you

I'm happy for you, wherever you are
