

I Can Feel You

Delilah

Hold your breath don't cry they're coming
Tainted secrets *don't die* they're coming
And if you wait for dawn to fade
You should see the dark
And as the gold defines your pain
[Chorus:] I can feel your heart
Open from the start
I can feel your soul
Yearning to my call?
I can feel you
Hold my hand don't hide cos they're comin

Fallin angels fly by and they're comin
So if you wait for dawn to fade
You should see the dark
And as the gold defines your pain
[Chorus:] I can feel your heart
Open from the start
I can feel your soul
Yearning to my call?
I can feel you
I can feel you're heart
You're heart
I can feel you
