

The Honeymoon Song

The Beatles

One, two, three
Two, two, three
You know I love you, baby
And I know you love me too
But the fun that day, didn't start until
We left on our honeymoon
Stepped off the plane into a warm sunny day
Then we got laid together
The sun shines down on a lonely town
Where the fish all smile, 'cause they know us
Our wedding day was warm and sunny
Our friends and family came from out of town
We said, "I do", Then ate some food
And smiled 'til sun went down
We'll take the zodiac, Cadillac
Around the north shore
And then we'll head back
The sea turtles come to greet us
So let's get loaded tonight
We'll drink on the flight
Back home
The honeymoon is over
You know I love you, baby
And I know you love me too
But the fun that day, didn't start until
We left on our honeymoon
We're on our honeymoon
We're on our honeymoon
The fun that day, didn't start until
We left on our honeymoon
