

# Wake Me

## Bleachers

Right from the start I knew  
You'd set a fire in me  
And I'd rather be sad with you  
Than anywhere away from you And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart Stake my life on it  
If somebody's gonna quit  
Then I'd rather be sad with you  
Than with any other girls but you And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart If you're lonely lonely lonely wake me  
If you're lonely lonely lonely wake me  
If you're lonely lonely lonely wake me  
If you're lonely lonely lonely wake me  
If you're lonely lonely lonely wake me  
If you're lonely lonely lonely wake me  
I can't believe I captured your heart Right from the start I knew  
You'd set a fire in me  
And I'd rather be sad with you  
Than anywhere away from you And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart
