Big Wave

Pearl Jam

I used to be crustacean In an underwater nation And I surf in celebration

Of a billion adaptationsGot me a big wave, ride me a big wave, got me a big wave. Got me a big wave, ride me a big wave, got me a big waveI feel the need

planted in me

Millions of years ago

Can't you see

the oceans size?

Defining time

and tide

arising

Arms laid upon me

Being so kind

To let me rideI scream in affirmation

Of connecting dislocations

And exceeding limitation

By achieving levitationGot me a big wave, ride me a big wave, got me a big wave.

Got me a big wave, ride me a big wave, got me a big wave. I feel the need

planted in me

Millions of years ago

Can't you see

the oceans size?

Defining time

and tide

arising

Arms laid upon me

Being so kind

To let me rideGot me a ride

I got me a ride
