

# When You Feel the Mess

## Starflyer 59

When the worst takes its head  
When you feel the mess You don't know me well enough this way  
It's easy when you know  
You don't know me well enough this way  
Easy you know, easy you know, easy you know You can take the most  
When you can fake it some You don't know me well enough this way  
It's easy when you know  
You don't know me well enough this way  
Easy you know me, easy you know me  
Easy you know me, easy you know
