

Resurrection Code

Disarmonia Mundi

The uttermost attraction you repressed until tonight
is breaking free like a boundless stream of ravenous desire
Feral resurrection dancing on a wire celebrate the darkness
that is torturing your mindFLOW
Your endless dreams are burning bright
The Resurrection Code
Overflow of quivering shivers
Overflow of quivering shivers
Standing by the moon shapes
The night in me
(The night in me)Paralyze the senses from our state of disgrace
we must fall
chase the end of nightmares by the pulse of midnight we're reborn
Lycannihilation face the endless night
Your meaningless existence
is a shelter between me and IFLOW
Your endless dreams are burning bright
The Resurrection Code
RISE
For a midnight ride - from a senseless life
The Resurrection Code
Overflow of quivering shivers
Overflow of quivering shivers
Standing by the moon shapes
The night in me
(The night in me)Galleries of shadows stain the crystal-moonlit night
The netherbreed is reborn hail the eve of your declineChasing the dreams of the endless night
(??? endless night)
Solidify the steps of time
(Solidify the steps of time)FLOW
Your endless dreams are burning bright
The Resurrection Code
RISE
For a midnight ride - from a senseless life
The Resurrection CodeOverflow of quivering shivers
Overflow of quivering shivers
Standing by the moon shapes
The night in me
(The night in me)Overflow of quivering shivers

Overflow of quivering shivers
Standing by the moon shapes
The night in me
(The night in me)
