

# Dancing With The Women At The Bar

## Whiskeytown

When I see the moon I hear the sound of the strip  
Just calling my name, just calling my name  
When I see the moon I hear the sound of the strip  
Just calling my name yeah it's calling my name Man, I love the feeling when I go out  
Dancing with the women at the bar  
Man, I love the feeling when I go out  
Always know my woman's close somewhere My daddy saw the moon, heard the sound of the strip  
It called out his name, it called out his name  
My daddy saw the moon and heard the sound of the strip  
It called out his name and it called his son's name too Man, I love the feeling when I go out  
Dancing with the women at the bar  
Man, I love the feeling when I go out  
Always know my woman's close somewhere, close somewhere When you see the moon, hear the sound of the  
strip  
Yeah call out my name, yeah call out my name  
And if you see the moon, hear the sound of the strip  
Yeah call out my name, yeah call my friend's names too Man, I love the feeling when I go out  
Dancing with the women at the bar  
Man, I love the feeling when I go out  
Always know my woman's close somewhere, close somewhere
