You Need

Bengsons

You need, i have what you need
you need, i have what you need
my heart is yours
my heart won't bleed

across the room, you catch my eye
you caught my eye you caught my eye

you you you you you you you you you you you you you

you need, i have what you need
you need, i have what you need
my heart is yours
my heart won't bleed

across the room, you catch my eye
you caught my eye you caught my eye

you you you you you you you you you you you you you

this is knowing (?)
because when its snowing (?)
we'll bound up together (?)
ill keep you forever
ill keep you warm

ill keep you warm
you are what you see
you are what I need
you are what you see
i got what i see
I'm cruel, you know that I'm cruel
you want all my need
you get all my need
