

# Take Care Of Me

Iggy Pop

I've been working a long, long time  
Now I'm caught in a wicked bind  
You offered love but I threw that out  
I couldn't hear you, I was too busy shouting  
Like a laughing hyena run out of breath  
I shot my rocks off till there's nothing left  
It's an old, old story, I suppose  
A heavy price for a heavy pose  
Just take care of me  
Take care of me  
Somebody should  
Hey, I'm pretty good  
International garbage man  
I've decided that's what I am  
I need somebody to pull me out  
I'm sinking like crazy in my sauerkraut  
Take care of me  
Take care of me  
I've done my best  
Now you do the rest  
Little boy, take out your toys  
And then lay them on the table  
Benwa balls and bugs that crawl  
I can't enjoy them without love  
Still I've been known to run around  
And take care of me  
But beware of me  
Sometimes I'm a snake  
Just after the take  
And take care of me  
Take care of me  
I've done my best  
Take care of me  
Now you do the rest  
Take care of me  
I'll never forget  
Take care of me
