

To My Own Devices

Soul Asylum

Shouldn't a got so loaded
Damn near exploded
Oh Lord, you know, I should'a known it Whatever the price is, whatever the crisis
Oh please don't leave me to my own devices
Please don't leave me to my own devices
Oh please don't leave me to my own devices She was a pretty good waitress
Said she waited on Elvis
Said she talks too much Please don't leave me to my own devices
Oh please don't leave me to my own devices Save it up for a rainy day
It just rained yesterday Whatever the price is, whatever the crisis
Oh please don't leave me to my own devices
Please don't leave me to my own devices
Oh please don't leave me to my own devices
(Uuh, na uuh, na, uuh, uuh)
