

Idiosyncrated

Disharmonic Orchestra

Vision escapes from your spiritual waste
A conscious decision of your inner soul
Symbols trapped through convulsions of my brain
Visualized figures marching in stepThe game is over
This time it's too lateVision escapes from your spiritual waste
A conscious decision of your inner soul
Symbols trapped through convulsions of my brain
Visualized figures marching in stepVision escapes from your spiritual waste
A conscious decision of your inner soul
Symbols trapped through convulsions of my brain
Visualized figures marching in stepThe game is over
This time it's too late
The game is over
This time it's too lateThe game is over
This time it's too late
The game is over
This time it's too late
