Like Her

Mandalay

Can't we talk
Set it right
Can't we talk
AnymoreAll this time
Only you
Nothing more
All this timeIt looks like
You won't be staying round
Given the time
And your mood
You look a lot like her
And you look so like
You won't be staying around
Here in this half light
You look a lot like herIs it all
Lost and gone
Could you give
Me some room
Room to be
Room to heal
Worth as much
You will beIt looks like
You won't be staying round
Given the time
And your mood
You look a lot like her
And you look so like
You won't be staying around
Here in this half light
You look a lot like herYou decide
What I meant
What is right
You decide
Please believe
I will be
Here for you
I will beIt looks like
You won't be staying round
Given the time

And your mood
You look a lot like her
And you look so like
You won't be staying around
Here in this half light
You look a lot like her
(x3)
