Raise

KAVver.

Raise, your voice out into the universe
Raise, your mind beyond the planets and the sun
Raise, where there is need, you'll find us there
Raise, spread the message everywhere
The dawning of the ages has just began
Ooh, oh yes, raise your voice out into the universe, oh yes, ooh ohStand, stand tall, head up high above the traitors call
We come in numbers seeking peace for one and all
Our history, if nothing else has taught us that we're wrong
When we destroy, destroy the place where we belongRaise, your voice out into the universe
Raise, your mind beyond the planets and the sun
Raise, where there is need, you'll find us there
Raise, spread the message everywhere
The dawning of the ages has just began
Oh yeah, yeah, oh yeah, oh, oh yeah, oh yeah, ohStand, stand tall, head up high above the traitors call
We come in numbers seeking peace for one and all
Our history, yeah, if nothing else has taught us that we're wrong
When we destroy, destroy the place where we belong
