Never Use Love

Advisory - the following lyrics contain explicit language:

HeyI'm gonna make my statement
Don't need arrangements
I said you're not gonna make tracks
All over my lifeWhen push comes to shove
I'll be pushin' you down
Better think twice when you take that step
That you got both feet on the groundNever use love
(Never use love)
I don't want to fight
I won't get in your way
Don't give me the right
Never use loveI've gotta find my place
Don't need no replacements
When you think you're too much
Then I've had enough hell, yeahWhen push comes to shove
I'll be pushin' you down
Better think twice when you take that step
That you got both feet on the groundNever use love
(Never use love)
I don't want to fight
I won't get in your way
Don't give me the rightNever use love
(Never use love)
I don't want to fight
Never use loveNever use love
Never use loveNever use love
Never use love
Never use loveNever use love
Never use love
