# Hey Anna Lena

## Bell X1

Hey, Anna Lena
Let's get married
Let's get out of this place
Just take what you can carryI got the pink lilo
Won't need much where we're going
Can I get a witness?
Let's take your sister and let's goHey, Anna Lena
For richer or poorer
May the force be with you
Because you're worth itWe leave at first light
When the house is still quiet
Just act casual
Like you do this all the timeOh, oh, 5-0
Oh, oh, 5-0Hey, Anna Lena
It's between me and you
There's only so much
Popeye can doTo teach you how
To win the girl of your dreams
Beat up the bad guy
And eat your greensHey, Anna Lena
I think that I know
The hills where your life rose
The hills where your life roseI may be only five years old
But I think that I know
The sea where it goes
The sea where it goes
The sea where it goes
The sea where it goesI think I know the hills where your life rose
I think I know the sea where it goes
I think I know the hills where your life rose
I think I know the sea where it goesI think I know the hills where your life rose
I think I know the sea where it goes
I think I know the hills where your life rose
I think I know the sea where it goesI think I know the hills where your life rose
I think I know the sea where it goes
I think I know the hills where your life rose
I think I know the sea where it goesI think I know the hills where your life rose
I think I know the sea where it goes
I think I know the hills where your life rose

I think I know the sea where it goes
