You Can Say That

Shenandoah

I know I'm no Einstein and you know it too
But that never mattered that much to you
And I aint no angel just one lucky man
Lucky you love me just like I amDo I love you, yeah you can say that
You touch all the right places girl youve got it down, pat
You push all the right buttons as a matter of fact
No one says I love you like you can say thatYou could say I'm off center half out of my mind
But I've always been that kinda guy
You could say that I'm crazy and I'd say thats true
Only because I'm so crazy for youDo I love you, yeah you can say that
You touch all the right places girl youve got it down, pat
You push all the right buttons as a matter of fact
No one says I love you like you can say thatIts in your morning kiss that lingers on your lips
Its in the way you hold my hand
Its in your smile, come talk to me a while
And tell me all over againDo I love you, yeah you can say that
You touch all the right places girl youve got it down, pat
You push all the right buttons as a matter of fact
No one says I love you like you can say thatDo I love you, yeah you can say that
You touch all the right places girl youve got it down, pat
You push all the right buttons as a matter of fact
No one says I love you like you can say that
And, oh honey you can say that
