

# I Love The Rain

Chris Rea

The clouds are forming, she comes again  
I'll go and walk with her along the Seine  
Soon she'll be storming, here comes the wind  
But that don't bother me 'cause she's my friend  
I love the rain  
I love the rain  
I've held our memories all of these years  
So many good times and many tears  
I share my dreams with her, I share my fears  
So I just walk with her until she veers off in the distance  
I love the rain  
I love the rain  
I love, I love  
I love the rain, ooh  
Just as she always does, she has to leave  
With her she takes my heart into her breeze  
Sometimes I think that she just likes to tease  
Still I'll be waiting for her reprise  
I love the rain  
I love the rain  
I love the rain  
I love the rain  
I love, I love, I love  
I love the rain, ooh yeah  
I love, I love, I love  
I love the rain, ooh yeah  
I love the rain
