

# The Grave

## Mercyful Fate

There is a cemetary just East of here  
That's where they say the Devil, the Devil is always near  
    Come to the grave, the grave that comes alive  
The grave that feeds the nightBring your book of spells, ancient rites  
Magic signs, bring your sacrificeIt's time to draw the circle around the grave  
    Now don't you break the circle, tonight is not a game  
    Come to the grave, rise evil demon  
    Up into the nightIs that you, Baphomet, the inverted star?  
    We visit here at midnight, we stay until the daylight  
    Is that you, Baphomet, the inverted star?  
We visit here at midnight, we stay until the daylightThere is a cemetary just East of here  
That's where they say the Devil, the Devil is always near  
    Come to the grave, the grave that comes alive  
The grave that feeds the nightBring your book of spells, ancient rites  
    Magic signs, bring your sacrifice
