## They Ate Isengard

Demolition is a nasty thing, it can never end well  
If you're out here looking for a something  
I won't begin to pretend that you're anything but dust  
Control yourself, we're halfway there, it's not that far  
I believed in you, now I'm seeing you everywhere,  
I won't begin to pretend that you're anything but dust  
So if you're looking for an explanation it's most likely not  
here  
If you're planning on growing old you better get to it then,  
No time to lose, just play it cool  
She's got a stone in her chest and it's not going away,  
Not today
