

# Inner Body Revolt

## Sleepwave

I wake up spinning oh so selfishly  
And I know this is all my fault  
I toss and turn from all my restlessness  
Don't you, don't you just disapprove I missed the mark again  
How could I shoot so blindly  
I'm falling faster now  
So please don't catch me Lets all just stand around  
While I'm ripping at the seams  
It's getting closer now  
As I'm fading patiently I've watch you walking circles in my head  
And I know yes I know just who you are  
Its time for you to put your mask away  
And let me, let me stare in your eyes  
I missed the mark again  
How could I shoot so blindly  
I'm falling faster now  
So please don't catch me Lets all just stand around  
While I'm ripping at the seams  
It's getting closer now  
As I'm fading patiently  
I've watch them all rip right into me  
Lets all just stand around  
While I'm ripping at the seams I won't let you make it up to me  
I don't wanna  
I don't wanna see you close your eyes  
NO  
I'll make you stare right back at me vacantly  
You'll sink and I'll survive  
I missed the mark again  
I missed the mark again Lets all just stand around  
While I'm ripping at the seams  
It's getting closer now  
As I'm fading patiently  
I've watch them all rip right into me  
I've watch them all rip right into me  
I've watch them all rip right into me
