

Hold Me

Farid Mammadov

Should have seen it coming when I saw you
Should have had the sense to stop and walk away
It was gonna turn out complicated
We've hit overload, about to explode

If love was a mountain
I'd climb up to the highest of them all
I'd swim across the ocean if you'd call
I'm lost in your smile, freefalling for miles

Hold me, just unfold me
Unchain my soul, give me love, make me whole
Hold me if it's only
For this moment in time, now I'm yours and you're mine
So hold me

Take a little time and you'll know better
Then to think about giving in on the one you love
Here we're going back and freeze the moment
When we used to be free, was only you and me

Hold me, just unfold me
Unchain my soul, give me love, make me whole
Hold me if it's only
For this moment in time, now I'm yours and you're mine

Remember how we used to laugh, but now you're running from the past
Let's find the strength to carry on
Remember how when love used to be, you said I was your fantasy
Can't take another night alone, so come on home

Hold me, just unfold me
Unchain my soul, give me love, make me whole
Hold me if it's only
For this moment in time, now I'm yours and you're mine

So hold me
