Never Say Goodbye

jacksoul

You
You're lying next to me in bed
A thousand thoughts go rushing through my head
I turn and kiss your sleeping face insteadYou
You wrestle with the sheets and cling to me
Just to watch you sleeping perfectly
There's nowhere else on earth I'd rather beNow I never intend to harm you
But there's a chance you know I will
And if I do, I'm sorry, baby
I'll try harder stillIf ever we say goodbye
I want you to hold inside
The knowledge that you'll always have
My true undying loveIf the angels above provide
On a chariot I will ride
Back into your arms so that
We never have to say goodbye, goodbyeTime
You and I both have our histories
Now things that came before us cease to be
And all the ghosts inside you you can set them freeNow I never intend to wrong you
That was never in my plan
But if I do, I'm sorry, baby
I just want to be your manIf the last day comes tomorrow
And the stars fall from the sky
Only then can I release you
'Cause I know that all angels have to flyIf ever we say goodbye
I want you to hold inside
The knowledge that you'll always have
My true undying loveIf the angels above provide
On a chariot I will ride
Back into your arms so that
We never have to say goodbye, goodbye
