It's Time

[Patti Labelle](#)

It's time for you to tell gonna miss out girlfriend
To tell him how you feel
It's time to tell him how you feel
Baby stop playin' around
Gonna miss out on what's real
It's time to show him you're for real
Don't let him trust someone
If you won't someone else will yeah
You're a woman now
And it's time for you
Time to grow up
An' learn your way
Make his house a home
And make sure he knows
You're the one
He can count on
It's time to tell him how you feel
Baby stop playin' 'round
Gonna miss out on what's real
It's time to show him you're for real
Don't let him trust someone
If you won't someone else will yeah
Now that you've settle down
How could you wear a frown
Knowing that he is the one
His love has been so good
It's time you understood
That he'll never let you down
It's time to tell him how you feel
Baby stop playin' around
Gonna miss out on what's real
It's time to show him you're for real
Don't let him trust someone
If you won't someone else will yeah
Has there ever been a time
You let him slip away
You didn't know what you had
Now you wished he would've stayed
Girlfriend it's time to grow

And learn what it takes to hold on
To the real thing
It's time to tell him how you feel
Baby stop playin' around
Gonna miss out on what's real
It's time to show him you're for real
Don't let him trust someone
If you won't someone else will yeah
It's time to tell him how you feel
Baby stop playin' around
Gonna miss out on what's real
It's time to show
