

Straitjacket

[Alanis Morissette](#)

Something so benign from me
Construed as cruelty
Such a difference between
Who I am and who you see
Conclusions you come to of me
Routinely incorrect
I dont know who youre talking to
With such fucking disrespect
This shifts making me crazy
The way you nullify whats in my head
You say one thing, do another
And argue thats not what you did
Your ways making me mental
How you filter askewed interpret?
I swear you wont be happy 'til
I am bound in a straitjacket
Talking with yous like
Talking to a sieve that cant hear me
You fight me tooth and nail
To disavow whats happening
Your resistance to a mirror
I feel screaming from your body
One day Ill introduce myself
And youll see youve not yet met me
This shifts making me crazy
The way you nullify whats in my head
You say one thing, do another
And argue thats not what you did
Your ways making me mental
How you filter askewed interpret?
I swear you wont be happy 'til
I am bound in a straitjacket
Grand dissonance
The strings of my puppet are cut
The end of an era
Your dis-crediting lost my consent
This shifts making me crazy
The way you nullify whats in my head
You say one thing, do another
And argue thats not what you did
Your ways making me mental
How you filter askewed interpret?
I swear you wont be happy 'til
I am bound in a straitjacket
