

Burnt

STRYNN

When he called her name, they could go anywhere

(Then he went somewhere alone)

Then he changed his voice, to a more serious tone

(She's alone, he's alone)

So she goes somewhere else, as well, and she gets herself involved, with someone else

(Can you tell where this is going?)

Wanna help them out? Then hear them out

[Chorus:]

Got burnt, third degrees

Never learnt my lesson

But forgive me please

Nothing lasts forever and nothing is free

Please remember to let me down gently

There are people

Climbing over walls

(Just to see how she is feeling)

And they know

They know it's worth the sweat

(When they see what she is doing)

If you hear her shout, then please look up

[Chorus x3]
