Inspire Me

Paul Carrack

No matter what you do
I never get used to you
You always change
You're never the same
You can put up the fight
Whether you're wrong or right
It's nothing new you never loseThat's why
You still inspire meSometimes you lose control
That's when it's touch and go
If I should stay
Or be on my way
You know it's not hard to see
We've got the chemistry
That keeps us alive
Maybe that's whyYou inspire me
