

# Trip Switch (Prime-Music.net)

## Nothing But Thieves

Sharing secrets with another world  
Rubbing shoulders with some unknown lovers  
    Making waves through the universe  
Starting wars with anonymous brothers  
    Trip switch, trip switch  
    Make a wish and I'll count to three  
    Press the button and we'll both be happy  
        Sending signals is a dirty trick  
        I get my love in a digital packet  
Trip switch, trip switchWhat we do when the power's out  
    What do we do when the lights go down?  
        What we do when the power's out  
        What do we do when the lights go?  
    Down, down, down, down, down, when the lights go  
Down, down, down, down, lights goGimme data 'cause I need a hit  
    How I love stratospheric numbers  
    Information, I've been craving it  
    Gimme yours then gimme all the others  
Trip switch, trip switchWhat we do when the power's out  
    What do we do when the lights go down?  
        What we do when the power's out  
        What do we do when the lights go?  
    Down, down, down, down, down, when the lights go  
Down, down, down, down, the lights goThey put out the lights, they put out the lights  
    They put out the lightsWhat we do when the power's out  
        What do we do when the lights go down?  
        What we do when the power's out  
        What do we do when the lights go?  
    Down, down, down, down, lights goWhat we do when the power's out  
        What do we do when the lights go?  
        What we do when the power's out  
        What do we do when the lights go?  
        Down, down, down, down  
    Down, down, down, down, when the lights go down
