Line Up

Elastica

Drivel head wears her glad rags
She's got her keys, money and fags
I know that her mind is made up
To get rockedDrivel head needs a new man
As only a drivel head can
He's a hormonal nightmare
So bewareAnother victim of line up in line, line up in line is all I remember
Oh, how their favors change, you could've been kinder
Yes, yes line up in line, line up in line is all I remember
Oh, how their favors change, you could have been mine, uhDrivel head knows all the stars
Loves to suck their shining guitars
They've all been right up her stairs
Do you care? NoDrivel head knows all the bands
Knows them like the back of her hands
You can't see the wood for the trees
On your kneesAnother victim of line up in line, line up in line is all I remember
Oh, how their favors change, you could have been kinder
Yes, yes line up in line, line up in line is all I remember
Oh, how their favors change, you could have been mine, uh
