

# I Control The Sun

[Lisa Loeb](#)

I control the sun, I turn on the stars  
I make all the colors that you see as you circle me  
I open up the sky, I control the speed  
I can make the green lights flash, I can make you crash  
Barely makes a sound  
You stop when you slow down  
But, I can't make you see things the way I see things  
I can't make you feel things the way I feel them  
I can't wait around for you, I've got better things to do  
Cause I control the sun, I cool down the heat  
I can make the walls spin around and raise the ground  
I control the world, I can make it flat  
I can make the water deep so I can save you from the sea  
Stop when you see me down  
Afraid that you would drown  
But, I can't make you see things the way I see things  
I can't make you feel things the way I feel them  
I can't wait around for you, I've got better things to do  
I've pushed every button, I've pulled every string  
I've tried every lever, I've tried everything  
Barely makes a sound  
Stop when you slow down  
But, I can't make you see things the way I see things  
I can't make you feel things the way I feel them  
I can't wait around for you, I've got better things to do  
Now, I can't make you see things the way I see things  
I can't make you feel things the way I feel them  
I can't wait around for you, I've got better things to do  
Cause I control the sun, I control the sun  
If I can control the sun, then why can't I have you?  
I've got better things to do
