

# Changing Me

## Bloodgood

I can only hope to see what is changing me  
Being here like I am  
The world is spinning faster heading for disaster  
He's changing me, Yeah changing me Turn on light in the dark, I can't see  
I can't taste what I'm eating  
The earth is being tread upon and bled upon  
Blood dripping to the sea He holds the world in His hand  
He took the keys and showed us His plan  
He is the One who brought me down to my knees I can only pray to find how to deal with this bind  
Being here like I am  
The world is spinning faster heading for disaster  
He's changing me, yeah changing me Turn on light in the dark, I can't see  
I can't taste what I'm eating  
The earth is being tread upon and bled upon  
Blood dripping to the sea Turn on light in the dark I can't see  
I can't taste what I'm eating  
The earth is being tread upon and bled upon  
Blood dripping to the sea Bring on the sleigh I want to slide away  
Are you hot? Are you freezing?  
Slide away there's price to pay  
Are you hot? Are you freezing?
