

The Night Santa Went Crazy

"Weird Al" Yankovic

Down in the workshop all the elves were makin' toys
For the good Gentile girls and the good Gentile boys
When the boss busted in, nearly scared 'em half to death
Had a rifle in his hands and cheap whiskey on his breath
From his beard to his boots he was covered with ammo
Like a big fat drunk disgruntled Yuletide Rambo
And he smiled and said, with a twinkle in his eye,
"Merry Christmas to all, now you're all gonna die!"

The night Santa went crazy

The night St. Nick went insane

Realized he'd been gettin' a raw deal

Something finally must have snapped in his brain Well, the workshop is gone now, he decided to bomb it

Everywhere you'll find pieces of Cupid and Comet
And he tied up his helpers and he held the elves hostage
And he ground up poor Rudolph into reindeer sausage
He got Dancer and Prancer with an old German Luger
And he slashed up Dasher just like Freddie Krueger
And he picked up a flamethrower and barbecued Blitzen
And he took a big bite and said, "It tastes just like chicken!" The night Santa went crazy

The night Kris Kringle went nuts

Now you can't hardly walk around the North Pole

Without steppin' in reindeer guts There's the National Guard and the F. B. I.

There's a van from the Eyewitness News

And helicopters circlin' 'round in the sky

And the bullets are flyin', the body count's risin'

And everyone's dyin' to know, oh Santa, why?

My my my my my my

You used to be such a jolly guy Yes, Virginia, now Santa's doing time

In a federal prison for his infamous crime

Hey, little friend, now don't you cry no more tears

He'll be out with good behavior in 700 more years

But now Vixen's in therapy and Donner's still nervous

And the elves all got jobs working for the postal service

And they say Mrs. Claus, she's on the phone every night

With her lawyer negotiating the movie rights They're talkin' 'bout the night Santa went crazy

The night St. Nicholas flipped

Broke his back for some milk and cookies

Sounds to me like he was tired of gettin' gypped Wo, the night Santa went crazy

The night St. Nick went insane

Realized he'd been gettin' a raw deal
Something finally must have snapped in his brain
Wo, something finally must have snapped in his brain
Tell ya, something finally must have snapped... in his brain
