

Cry for You

Hot Chip

When I

When I cry for you (no explanation needed)

When I cry for you (it's not debated)

When I cry for you (it's so degrading)

When I cry for you (no hesitation)

And like I'm dreaming on my own

Another dream left all alone

Another reason looking for love

Without a meaning looking for hope

(When I cry for you)

When I cry for you (no explanation needed)

When I cry for you (it's not debated)

When I cry for you (it's so degrading)

When I cry for you (no hesitation)

And like I'm dreaming on my own

Another dream left all alone

Another reason looking for love

Without a meaning looking for hope

I'm just sitting here thinking

Thinking about what I started feeling

When I started myself from crying

Replacing what's lost, or at least trying

Never been so out-of-mind

Never been so into-mind

Never been so wondering why

If this is for the best

If this is for the best

Let's put this to the test

Let's put this to the test

Whatever happens next

Let's put this to the test

Let's put this to the test
