

# Bad

## Jason Aldean

When you're good, girl you're good  
Doing every little thing exactly like you should  
So sweet, with your angel eyes just killin' me  
On the porch, blue sky  
Yeah you hold my hand say you want to take a Sunday drive  
It's all good, when you're good But when you're bad  
And you're lookin' at me just like that  
Reach up and you take my hat and you turn it around  
Steal my drink and you shoot it on down  
When you're wild, child, flashin' that come here smile  
Spinnin' in your little red dress  
Show a little too much  
When you dance like that  
Sayin' look don't touch  
I never know what I'll get when we get together  
When you're good, you're good  
But when you're bad, you're better When you're good, girl you're good  
When you're countin' the stars in the sky layin' back  
On the hood, talkin' 'bout  
How you want to stay here 'til the moon goes out  
With your head, on my chest  
One innocent little kiss  
Aw it's so good, so good, when you're good But when you're bad  
And you're lookin' at me just like that  
Reach up and you take my hat and you turn it around  
Steal my drink and you shoot it on down  
When you're wild, child, flashin' that come here smile  
Spinnin' in your little red dress  
Show a little too much  
When you dance like that  
Sayin' look don't touch  
I never know what I'll get when we get together  
When you're good, you're good  
But when you're bad, you're better Yeah, I love every side of you  
All the wrong and the right of you  
All the day and the nighttime too  
But you're the best I've ever had  
But when you're bad  
And you're lookin' at me just like that

Reach up and you take my hat and you turn it around  
Steal my drink and you shoot it on down  
When you're wild, child, flashin' that come here smile  
Spinnin' in your little red dress  
Show a little too much  
When you dance like that  
Sayin' look don't touch  
I never know what I'll get when we get together  
When you're good, you're good  
But when you're bad, you're better Girl when you're bad you're better
