

Golden (feat. S.O.)

LZ7

We feel alive, we have it all
Right here, right now, it's what we want
Do you here that sound?
They're calling us
It's in the air, in all of us
Wanna spend the summers nights til break of dawn
Fire's no illusion heat is going strong
Let's not be confused we're just staying warm
Together we're better, we're strong
Your golden, I promise you're chosen
No one can take that away from you-o-o
Your golden, with colors exploding
No one can take that away from you
Twenty-four karats, and twenty-four hours
Every minute's golden with you
Every breaking hour
I can sing it louder
Every moment's golden with you
Da-da-da-da-da (golden with you)
Yeah, all in the moment
Living like my kids golden
I been chosen, I bring hope in
Every minute, hour I goes in
I can zone in, or zone out
Tell a man hold this, or hold out
Wanna stay focused, compose now
I know the way where it goes now
I know the wave and how to roll out
Yeah, I-I seen it all
I've seen the greatest I've seen 'em fall
When I say you're golden I mean it all
To the one who of all can't really let you go
You're special kind I gotta let you know
Exceptional and incredible, I'm gonna sign this out with some x and o
Your golden, I promise you're chosen
No one can take that away from you-o-o
Your golden, with colors exploding
No one can take that away from you
Twenty-four karats, and twenty-four hours
Every minute's golden with you
Every breaking hour

I can sing it louder
Every moment's golden with you
Da-da-da-da-da (golden with you)
