

# Already Gone

Canton Jones

(feat. Donnie Harper)

[Verse 1:]

I'm in a zone and I'm already gone,  
And it's already on, should've already known  
Act accordingly, you're in Rome  
Game gotta nappy head, gotta get get my comb  
Don't smoke but I still stay stoned  
Ain't high off chief and budda  
I'm high off Thank you Lord, Praise you Jesus, Hallelujah  
And we call this soldier worship, what's it to ya  
Wanna hear him say well done  
Not depart from me, I never knew you  
That's why I put my heart, mind, and soul in each and every song  
You say I'm doin music, I say I'm droppin bombs  
I declare war, it's on and poppin  
And stopping is not an option, so there's nothing that we need to discuss  
We call this the takeover, be careful cause all your friends and family may already be rolling with us  
Soon and very soon, and that ain't long  
When Jesus is gonna come and take us home  
You runnin out of minutes like a cell phone  
And if you are just showin up, look here I am

[Chorus:]

Already gone, I'm already gone  
I'm already gone, I'm off in a zone  
I'm already gone [x2]

[Verse 2:]

The enemy's a coward and I see his knees are knockin  
Just because you're yellin on the track, don't mean the train is stoppin  
You can either join us, step aside, or get rolled over  
I see the curtains closing, show's over  
Gotta let that light shine brighter than a super nova  
Days gettin darker, nights gettin colder  
But I'm the type to tread on a cobra  
And take authority over the 31st of October  
Told ya, I'm outta here, I'm on another level  
And yo, Christians fight other Christians

Cause they don't want to fight the devil  
And you tryna kill yo brother but the devil's killing you  
Man, why don't we just unite and make ten thousand out of two  
I don't care, I got some friends in there, I got some kin in there  
So I take authority like I am a Dominionaire  
And make sure his love is shown, whether you think I'm right or wrong  
You're just talking to yourself because you don't realize I'm

[Chorus]

[Verse 3: rap]

Yeah, come closer come close  
I know you see me physically but really I'm a ghost  
No ice cream, no soda, still I'm a float  
You're lookin at a star but it's the Son I promote  
So listen, I'm not the one you want to provoke  
Cause I gotta weapon that will anybody back in their place if they thinkin they can take me for a joke  
No way you'll catch me not livin by the words that was wrote  
In the book of Life, that alone got me gone in a zone  
So all you see around me is smoke  
Can't nobody break my concentration, quit wastin valuable time  
If you think I will come down buddy then you're outta your mind  
I'm on a spiritual high, just by lookin at my life you will find  
That I never stay down, my progress is always on the incline  
Let me tell you what you better do, realize we're ahead of you  
And this is not our home  
Kind of difficult to get in where you fit in  
When you're at a place you do not belong  
You know that I know that you know that I cannot be wrong  
When I mention that I'm in another dimension and

[Chorus]
