

# Flickers

## London Grammer

And with my opened mouth  
I join the singing light I can see the flickers  
Over me the lanterns raised  
Lift me up, lift me over it Show me what you're hiding  
Take me out into the sea  
Lift me up (I hear the singing light)  
Lift me over it Lift me up, lift me up  
Lift me over it And with my opened mouth  
I join the singing light Lift me up, lift me up  
Lift me over it  
Lift me up, lift me up  
Lift me over it And with my opened mouth  
I join the singing light I can see the flickers  
Over me the lanterns raised  
Lift me up, lift me over it.
