In The Sky

Young Swift

I saw the news today
The world seemed to stop
Fear was everywhere
And hope was so lost
In the circus of darkness
May I reply
I see him coming in the sky
Yes, I do
I see him coming in the sky
Watching and praying
And waiting all the day
With all it's abilities
It walks away
God speed that moment when I can stand and cry
I see Him coming in the sky
I see Him coming in the sky
I see Him coming
I see Him coming
Splitting the heavens in the twinkling of an eye
I see Him coming
I see Him coming
I see Him in the sky
I see Him in they sky
People are trying to find what they need
Hopeless illusions, where will it lead?
Well, I've found the answer in the sweet by-and-by
I see Him coming in the sky
I see Him coming in the sky

I see Him coming
I see Him coming
Splitting the heavens in the twinkling of an eye
I see Him coming
I see Him coming
I see Him coming in the sky
I see Him coming in the sky
Oh, that perfect moment
Won't be very long
I'll trade a broken heart for a beautiful song

And the angels singin Egypts lullaby
I see Him coming in the sky
I see Him coming in the sky
I see Him coming
I see Him coming
Splitting the heavens in the twinkling of an eye
I see Him coming
I see Him coming
I see Him coming in the sky
I see Him coming in the sky
I see Him coming
I see Him coming
I see Him coming in the sky
I see Him coming
I see Him coming
I see Him coming in the sky
Yeah, yeah, yeah
I can see You coming in the sky
