Baby Blue

Sarah Geronimo

I've been holding back my heart for too long
I was hypnotized, patronized
By your smile
You seem to take my breath away
Everytime you go, I know
Something is wrongTime has come to give into
This feeling I try to deny
Deep inside I am crying
I have to let goChorusBaby baby blue
The road isn't clear
I don't want you near me no more
Baby baby blue
We've been here before
And I just can't take it no moreMy lonely soul is hungry for love
I'm delusively, reluctantly
On my own
Although I need you so desperatley
I see the lies in your eyes
There's no where to hideYou're my true love companion
But love isn't here by my side
Don't you hear my heart calling
I'm torn up insideChorusI've been waiting for a miracle
Looking for the touch of an angel to show
I've been feeling so vulnerable
Playing this game with the devil
Holding my handTime has come to give into
This feeling I try to deny
Deep inside I am crying
I have to let goChorusBaby baby blue
If this is for real
Then why do we keep running wild
Baby baby blue
I'm losin' control, I feel
Like a motherless child
