

Down in the Dark

Across the Viaduct

Baby you're going Down In The Dark
Show my lonely night is fallen and I don't have very long
Think [I] might of broke my boil
Within my face might burn
You're gonna make it better for a little while
Baby you're gonna die someday
See you in your crowded wasted , then you start to fade

That when we start singing faster
I wouldn't wait so long
Won't get any easier in the Dark
Oh, yeah, yeah, yeahh
You Will, You Will, You Will...
