

# Brain Dead

## Last Rough Cause

Turn me off, pull the plug  
Leave me with some dignity  
I am not what I was  
And I don't need the sympathy  
Alive inside me  
No one can hear me  
Brain dead, I'm not  
Brain dead, sentenced  
Forgot  
Paralyzed in my shell  
Enduring every endless day  
Immobilized on my back  
Aware of everything they say  
Extricate me  
Eliminate me  
Brain dead, I'm not  
Brain dead, drip fed  
Forgot  
I can't blink my eye  
Or cry or even speak  
They crowd around my bed  
Condescending words are said  
Thinking I don't hear or know  
What is going on, hello  
Can't you suckers hear my cries  
From inside I'm still alive  
It's my decision to abort  
Turn off the goddamn life support  
Let me pass from this world  
Slowly fade away in peace  
Comprehending  
Unrelenting  
Brain dead, I'm not  
Brain dead, sentenced  
Forgot  
Brain dead, I'm not  
Brain dead, drip fed  
Forgot
