

Wet Pussycat (Remastered)

Unida

When she said the dogs gone, well are you high?
When she said the dogs gone, and your high
Blast through the front door, well are you high?
Blast through the back door, you're all mine Now you are my only, not just cause I'm lonely
Now you are the only one for me
If something is wrong babe, just turn to me I'll say
You are the only one for me, you got me right When you use your legs babe, your looking so fine
When you use your eye babe, your looking alright
When you shake your ass babe, your looking so fuckin' fine
And when you said your heart breaks
You better shake it down to me Now you are my only, not just cause I'm lonely
Well you are the only one for me
If something is wrong babe, now just come to me I'll say
You are the only one its true
Now you are my only, not just cause I'm lonely
Well you are the only one for me
You got me right! You got me right, you got
You got me right, yeah, you got me
Oh lord you got me! And your son, and your daughter, and your sister, and your mother
You got it right
