Just Follow

The Duskfall

Am I mentally weak?
as the masses, acting like rats
And now killing eachother
and it feels like they deserve it
Denied all the lies so far
begging for the fall
The smiling plague that we are
don't think it doesn't suite you, just follow...And now they all walk through the flames
and still they follow them blindlyLet's give in to the madness
as so many times before
History repeats itself
what a happy ending
Denied all the lies so far
begging for the fall
The smiling plague that we are
don't think it doesn't suite you, just follow...
