

# Keep On Bringing Me Down

## Forever The Sickest Kids

It's a sunny day on the west coast  
And currently my shades are drawn, my TV's on  
I haven't left this place for days  
It's funny how things change  
I take what I get and I throw it away and I break it  
I had everything and you took it from me and I hate it  
My thoughts run fast through me like a lethal injection  
Like a lethal injection  
Why does the world as I know it  
Keep on bringing me down?  
Do my best to hide it  
But it keeps on bringing me down  
No matter how high that I try and climb  
I'll be pulled back down again  
Why does the world as I know it  
Keep on bringing me down?  
Keep on bringing me down  
Keep on bringing me down  
It's 5 p.m. and I'm still locked in  
And my guitar's tuned wrong, my voice is gone  
I haven't seen sunlight in days  
It's funny how things change  
I take what I get and I throw it away and I break it  
I had everything and you took it from me and I hate it  
My thoughts run fast through me like a lethal injection  
Like a lethal injection  
Why does the world as I know it  
Keep on bringing me down?  
Do my best to hide it  
But it keeps on bringing me down  
No matter how high that I try and climb  
I'll be pulled back down again  
Why does the world as I know it  
Keep on bringing me down?  
Keep on bringing me down  
Keep on bringing me down  
Why does the world as I know it  
Keep on bringing me down?  
Do my best to hide it

But it keeps on bringing me down  
No matter how high that I try and climb  
I'll be pulled back down again  
Why does the world as I know it  
Keep on bringing me down?  
Keep on bringing me down  
Keep on bringing me down
